Company Overview

Connecting Power. Enabling Progress

RK Cables Industries Ltd. is a Bangladesh-based cable manufacturing and distribution company committed to delivering safe, reliable, high-quality cable solutions for homes, businesses, industries, and infrastructure projects.

Established in 2024, RK Cables was founded with a clear objective: to build a trusted cable brand by combining quality manufacturing, dependable products and strong customer relationships. The company brings together manufacturing capability, technical expertise and an expanding distribution network to serve the evolving electrical and communication needs of Bangladesh.

Manufacturing & Distribution

RK Cables operates its manufacturing facility in Brahmanbaria, supported by its corporate and distribution presence in Dhaka. This combination allows the company to maintain control over its manufacturing operations while ensuring efficient product distribution to customers and business partners.

The company's product portfolio covers a broad range of applications, including domestic wiring, industrial power transmission, automation and control, overhead distribution, submersible applications, communication and DC systems, as well as customized cable requirements.

Built on Experience

While RK Cables is a relatively young company, its leadership brings significant industry experience to the business. The Managing Director, H.M. Rashidul Hoque, brings more than 15 years of hands-on experience in the cable industry, contributing practical knowledge of the needs of customers, suppliers and businesses across Bangladesh.

Our Vision

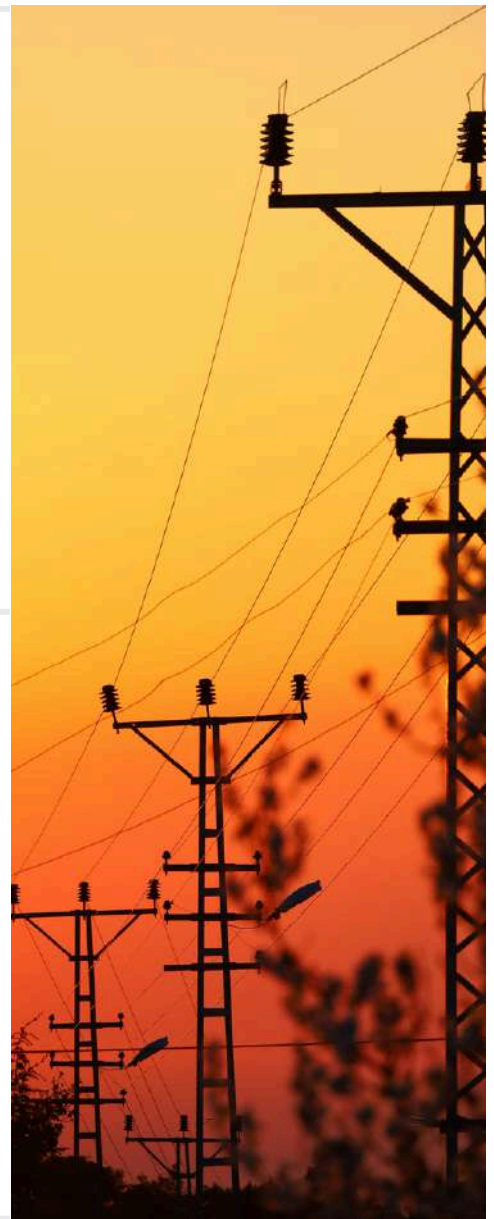

To become one of the most preferred and trusted cable brands in Bangladesh and beyond, recognized for quality, reliability, innovation and commitment to customer satisfaction.

We envision RK Cables contributing to a safer, more connected and more developed Bangladesh by providing dependable cable solutions for homes, businesses, industries and infrastructure.

Our Mission

To become one of the most preferred and trusted cable brands in Bangladesh and beyond, recognized for quality, reliability, innovation and commitment to customer satisfaction.

We envision RK Cables contributing to a safer, more connected and more developed Bangladesh by providing dependable cable solutions for homes, businesses, industries and infrastructure.

Our Core Values

Quality

Innovation

Customer Satisfaction

Integrity

Safety & Reliability

Our Philosophy

At RK Cables, we believe that a successful business is built on strong relationships. We strive to create lasting connections with our customers, partners and employees through mutual respect, trust, integrity and growth.

Chairman's Message

At RK Cables, our journey is guided by a simple belief: quality builds trust, and trust builds lasting relationships.

As we continue to grow, our focus remains on delivering cable products that customers can depend on for safety, reliability and consistent performance. We are committed to investing in quality, people and capabilities that strengthen our position as a responsible manufacturer and business partner.

Our ambition goes beyond building a successful company. We want RK Cables to contribute meaningfully to the development of Bangladesh by supporting businesses, industries and infrastructure with dependable cable solutions.

We look forward to building long-term partnerships based on quality, integrity and mutual growth.

Md. Liton Ahmed
Chairman

H.M. Rashidul Hoque

Managing Director's Message

The cable industry plays an essential role in every modern economy. From homes and commercial buildings to factories and large-scale infrastructure, dependable cable solutions are fundamental to progress.

At RK Cables, our mission is to meet this responsibility through safe, reliable and high-quality products, supported by responsive service and a strong commitment to our customers.

We continuously strive to improve our manufacturing capabilities, product quality and distribution network so that our customers receive the right products at the right time. At the same time, we remain committed to building a culture of professionalism, innovation and continuous improvement within our organization.

Why Chose RK Cables

Quality Materials | Reliable Products | Manufacturing Capability |
Comprehensive Range | Dependable Supply |

**More Than a Cable Manufacturer.
A Reliable Supply Partner.**

Choosing the right cable supplier is a decision that directly affects safety, performance, project continuity and long-term value. At RK Cables, we combine quality-focused manufacturing with dependable supply and customer-oriented service to provide cable solutions that businesses and projects can rely on.

Product Portfolio

Comprehensive Cable Solutions

RK Cables manufactures a diverse range of cables designed to meet the requirements of residential, commercial, industrial, infrastructure and specialized applications. Our product portfolio combines quality materials, reliable construction and application-specific performance to provide dependable solutions across different electrical and communication needs.

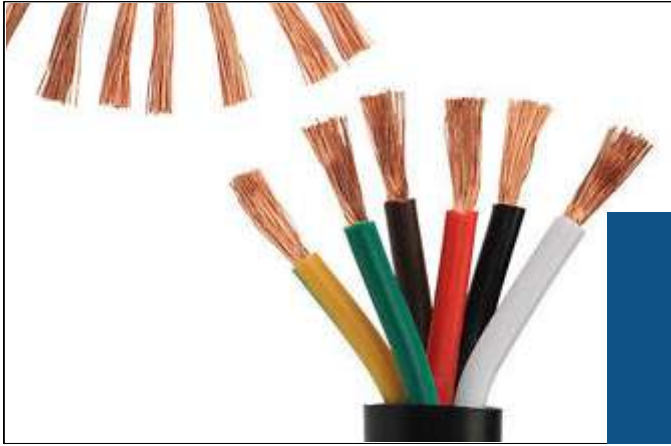

01 Building & Domestic Cables

Designed for electrical wiring and power distribution in residential and commercial buildings. These cables are suitable for everyday electrical installations where safety, conductivity and dependable insulation are essential.

02 Power Cables

Designed for the transmission and distribution of electrical power across commercial, industrial and infrastructure applications. Available in configurations suited to different power distribution requirements.

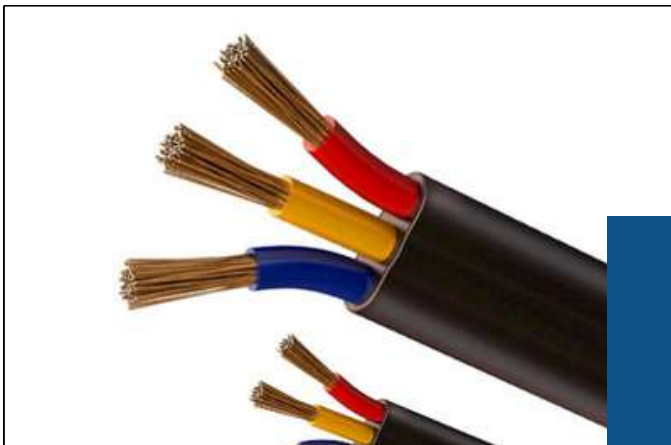

03 Control Cables

Designed for transmitting control signals and supporting electrical control and automation systems. These cables are suitable for connecting control equipment and machinery in industrial environments.

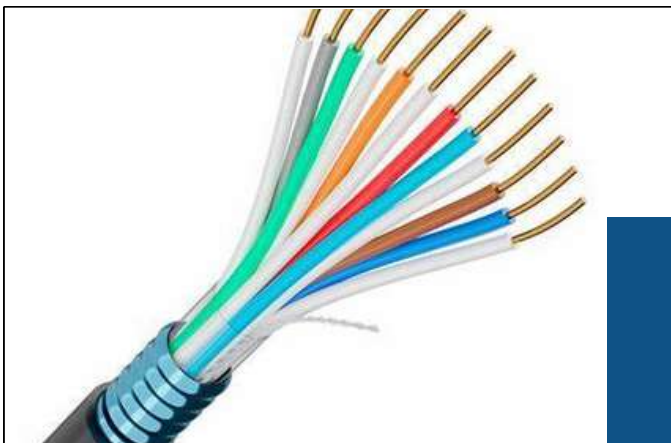

04 Overhead Related Cable

Designed for overhead electrical distribution systems, providing reliable connectivity for utility and electrification applications.

05 Submersible Cables

Designed for electrical connections in submerged environments, particularly for water pumping and related applications. These cables are built to support reliable operation in demanding conditions.

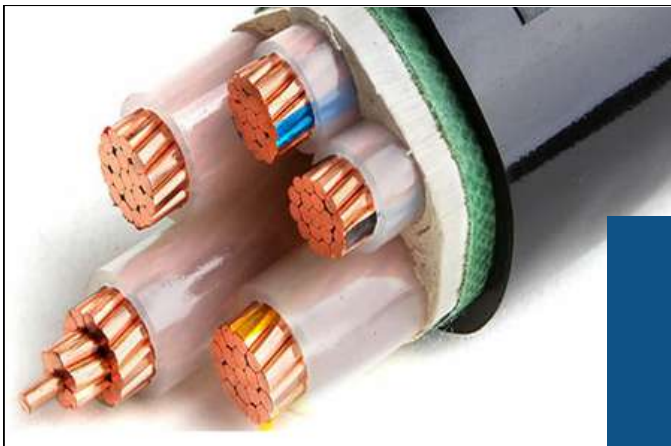

06 Communication Cables

Designed to support communication and connectivity requirements, providing reliable transmission for appropriate data and communication applications.

07 DC Cables

Designed for direct-current power applications, providing reliable electrical connections for systems and equipment operating on DC power.

08 Customized Cable Solutions

For projects with specific technical or operational requirements, RK Cables can provide appropriate cable solutions based on required specifications, application and technical feasibility.

Energize Your Electrical Needs

With seven major cable categories and dedicated manufacturing capacity, RK Cables is equipped to serve a broad spectrum of electrical and communication requirements—from everyday building wiring to industrial, utility and specialized applications.

Manufacturing Facility

A Dedicated Manufacturing Base in Brahmanbaria

RK Cables operates its dedicated manufacturing facility in Brahmanbaria, providing the foundation for its cable production and quality-focused operations. The facility is designed to support multiple cable categories and maintain a consistent supply for corporate, project and distribution requirements.

Factory at a Glance

Facility Parameter	Details
Total Factory Land Area	35,700 sq. ft.
Built-up / Production Area	33,400 sq. ft.
Production Floors	3
Production Sections	10
Production Lines	5
Shifts per Day	2
Working Hours per Shift	8 hours
Working Days per Month	25 days

With four production lines operating across two shifts, the facility is structured to support continuous and efficient manufacturing while accommodating a diverse range of cable products.

Monthly Production Capacity

RK Cables' manufacturing facility is equipped to produce a broad portfolio of cables for residential, commercial, industrial and specialized applications.

Product Category	Production Capacity (/mon)
Building / Domestic Cable	2,000,000 km
Power Cable	50,000 km
Control Cable	10,000 km
Overhead Cable	12 tons
Submersible Cable	30,000 km
Communication Cable	10,000 km
DC Cable	30,000 km

Multi-Product Manufacturing Capability

The facility's production setup enables RK Cables to manufacture building and domestic cables, power cables, control cables, overhead cables, submersible cables, communication cables and DC cables under one manufacturing operation. This production capability allows RK Cables to serve different market segments while supporting bulk orders.

Applications & Industries

Powering Diverse Sectors

RK Cables provides cable solutions for a wide range of residential, commercial, industrial and infrastructure requirements.

Residential

Homes, apartments, housing projects and residential complexes.

Commercial

Offices, retail spaces, hotels, shopping complexes and institutional facilities.

Power & Utilities

Power distribution, electrical networks, utility installations and electrification projects.

Infrastructure

Public facilities, development projects and large-scale infrastructure.

Construction & Real Estate

Residential & commercial developments, high-rise construction.

Industrial & Manufacturing

Factories, machinery, control panels, automation systems and production facilities.

Water & Agriculture

Water pumps, deep tube wells, irrigation and agricultural applications.

Communication & Technology

Communication networks, data systems, telecommunications and building connectivity.

DISTRIBUTORS

Distribution & Supply Network

From Factory to Customer

RK Cables combines its Brahmanbaria manufacturing facility with a dedicated Dhaka distribution center to ensure an efficient flow of products from production to customers across Bangladesh.

Our distribution network is designed to support both corporate and project-based requirements, as well as regular dealer and distributor demand.

Our Supply Network

Brahmanbaria Factory

Manufacturing and quality-controlled production.

Dhaka Distribution Center

Centralized storage, inventory management and order fulfillment.

Dealers & Distributors

Supporting market reach and product availability across different locations.

Corporate & Project Customers

Direct supply for bulk, scheduled and project-specific requirements.

Reliable Supply, When It Matters

Through coordinated manufacturing, inventory management and distribution, RK Cables works to maintain product availability, efficient order processing and timely delivery. Our objective is simple: the right product, in the right quantity, at the right time.

Safety & Reliability

Built for Safety. Made to Perform.

Electrical cables are a critical component of any power system. At RK Cables, we focus on delivering products that provide safe, consistent and dependable performance across a wide range of applications.

Flame-Retardant Technology

Selected RK Cables products incorporate flame-retardant (FR) technology, making it safe and helping reduce the spread of fire

Quality Materials

We use carefully selected materials, including high-quality copper and virgin PVC, to support conductivity, insulation and durability.

Consistent Performance

Controlled manufacturing and quality inspection help ensure consistent electrical performance and reliability.

Built for Durability

Our cables are designed to withstand the demands of their usage while maintaining reliable performance for long

Quality-Controlled Production

From raw material selection through manufacturing and final inspection, quality remains an integral part of our production process.

**SAFETY IS NOT AN ADDED
FEATURE-IT IS A FUNDAMENTAL
REQUIREMENT OF EVERY
RELIABLE CABLE.**

Our Team & Expertise

People Behind the Performance

At RK Cables, our capabilities are powered by the people behind our manufacturing, quality assurance, sales and distribution operations. We bring together experienced leadership, skilled technical personnel and dedicated teams working toward one common objective: delivering quality products and dependable service to our customers.

100% FR Cable

RK Cables
connected with trust

**POWERED BY PEOPLE
BACKED BY FAITH**

Leadership & Management

Our leadership team provides strategic direction while bringing valuable industry knowledge and business experience to the organization. Their focus is on building a sustainable, customer-oriented cable manufacturing company with strong standards of quality and professionalism.

Production & Technical Team

Our production and technical personnel are always responsible for maintaining efficient manufacturing operations across our multiple production lines and sections. Their practical knowledge and attention to process consistency support the reliable production of our diverse cable portfolio.

Quality Control Team

Quality is integrated into our manufacturing operations. Our quality-control personnel oversee inspection and testing processes to help ensure that finished products meet the required specifications and maintain consistent performance.

A Culture of Continuous Improvement

As RK Cables continues to grow, we remain committed to developing our people, strengthening technical capabilities and improving operational processes.

Sales & Distribution Team

Our sales and distribution teams connect the factory with customers, dealers, distributors and corporate buyers. They focus on understanding customer requirements, coordinating orders and supporting timely product delivery.

Contact & Partnership

Powering Your Next Project

At RK Cables, we believe the strongest business relationships are built on quality, reliability and mutual trust. Whether you are a developer, contractor, manufacturer, distributor or corporate buyer, we are ready to support your cable requirements with dependable products and service.
